K-TAG GREEN DENATURING AGENT

Product Description and Purpose

K-TAG GREEN is a concentrated, liquid denaturing agent for use on condemned carcasses in meat, poultry and rabbit processing plants. Spraying of the condemned carcasses with a solution of **K-TAG GREEN** imparts to the carcasses a green color.

K-TAG GREEN has been found acceptable to the USDA Consumer and Marketing Services, and the Slaughter Inspection, USDA, as a denaturing agent for condemned meat, poultry and rabbits in federally inspected plants. **K-TAG GREEN** conforms to ingredients and proportions as specific in Section 314.2 of the USDA Manual of Meat Inspection.

Features/Benefits

- Highly concentrated
- Imparts to carcasses a distinctive color
- Non-deleterious to allied environmental surfaces
- Accepted by Consumer and Marketing Services and Slaughter Inspection Divisions of USDA
- Contains biodegradable surfactants

General Usage Directions

Prepare a dilution of 4 fluid ounces **K-TAG GREEN** to 1 gallon of water (1:32). Using a suitable low-pressure sprayer, apply this solution to condemned carcasses of animals in meat, poultry and rabbit processing plants. Follow USDA Regulations, Paragraph 314.2, tanking and denaturing condemned carcasses and parts (USDA Manual of Meat Inspection).

TECHNICAL DATA

Physical Properties

Concentrated, viscous, dark green liquid. Mixes with water in all proportions to yield clear, green solutions. Its solutions are moderately foaming and have neutral pHs (8.0-10.0). Has a specific gravity from 1.0-1.03. Because of its complete water solubility, **K-TAG GREEN** and its solutions are readily rinsed from non-porous surfaces.

Caution

Keep out of the reach of children. Harmful if swallowed. Avoid contact with skin, eyes and mucous membranes. Wear rubber gloves, goggles, and protective clothing when handling product or use solution.
