

TECHNICAL DATA

THICK N' PINK LOTIONIZED SOAP FOR DISPENSING

Product Description and Purpose

THICK 'N PINK is ideally suited to dispense use in industrial plants where employees need an efficient yet gentle hand soap, with plenty of lather to cut soil and grease and cleanse the skin.

This special soap is made to be dispensed from a crank-top ribbon dispenser. It is ready for use and is packaged in a special cylindrical, one-gallon container, which fits standard wall dispensers, as well as in 55-gallon drums. It is also available in the standard one-gallon handled bottles.
