

TECHNICAL DATA

C K BLEACH

STAIN REMOVER

Product Description and Purpose

C K Bleach is a white, granular, free-flowing, slightly dusty powder with a faint odor, containing a mixture of oxidizing and bleaching agents. Aqueous solutions are non-foaming and have an alkaline pH.

Features/Benefits

Whitens and brightens fabrics of all types.
Safe on all fabrics when used as directed.
Convenient to use, dry, stable powdered form.
Easy and economical to use.
Authorized by USDA for intended purposes.
Eliminates odors and stains

Surfaces Applicable

All colorfast fabrics such as cotton, linen, cotton-synthetic blends, nylon, orlon and other synthetic fibers. Do not use on wool or other fibers harmed by water.

General Usage Directions

HOW USED:

1. Use at the rate of from 2/3 to 3/4 pounds per 100 pounds of laundry in the bleach cycle after cleaning.
2. Use a water temperature of 150° F. to 160° F., a 10-minute cycle and keep water level in machine at 6 inches.
3. Drain solution from machine.
4. Rinse with cold water for 3 minutes. The water level in the machine should be 13 inches.
5. Empty load.
