Cleaner 416-C

Self-Foaming Heavy Duty Cleaner

Product Description and Purpose

Cleaner 416-C is a heavy-duty alkaline cleaner is designed to remove burned-on carbon and other baked-on food soils. It is effective in removing oils, greased, and proteinaceous deposits commonly found throughout the food industry. It can be used in central cleaning systems, soaking operations, and immersion tanks. It can be used for boil out with foam and gel, and in recirculating systems of breweries, dairies, bakeries, meat, poultry, canning, and other food plants.

Features/Benefits

Economical
Concentrated
Safe on steel, iron, chrome, nickel, stainless steel, copper, and brass

General Usage Directions

CLEANER 416-C can be used as a recirculation cleaner at a concentration of 1 ounce to 3 ounces per gallon depending on the soil load.

Approximate use concentration when applied as a foam is 4 to 6 fluid ounces per gallon with the addition of 1/2 gallon **FOAM-IT** foam additive per 50 gallons of makeup solution.

For gel application, use one gallon of **CLEANER 416-C** cleaner to 6 ounces of Jelling Agent gel additive with 9 gallons of makeup solution.

Physical Properties

Form	Liquid
Color	Tan
Odor	Strong Caustic Odor
Boiling Point	212°F
Spec Grav	1.365-1.380
