## **C K Boost 3200 & C K Boost 3201** **Cleaning Oxidizing Agent & Alkaline Adjuvant**

### **Product Description and Purpose**

C.K. Boost 3200 and C.K. Boost 3201 are a two-part solution to effectively clean food contact equipment and surfaces. It also helps to remove and control biofilm and other organic contaminants that are commonly found in drains, pipes, and hard-to-reach trunk lines.

### **Benefits**

Saves time and Money, no scrubbing required, cost-competitive with other solutions, easy to use, concentrated, 2-part liquid.

### **Promotes Quality Assurance**

Allows for microbicidal activity past the trap and full 360° coverage of the entire drain line, effective biofilm control, used as one-time treatment or rotational maintenance program.

### **Convenient and Safer to Use**

Easy and effective foam to pour directly into drains and trunk line applications.

### **Environmental Application**

Non-acid, non-volatile, phosphate free, and can be flushed into sanitary waste systems.

### **General Usage Directions:**

General use at a rate of 12.8oz of both C K Boost 3200 & 3201 per gallon of water.
